

Easton is home to many public and private farms. Here is a listing of the many farms and farm stands serving the public.

Please note that the Covid -19 may impact hours of operation and openings

Each farm and market operate independently to best suit their business model. Please look to their websites or call to find out what process they have put in place. Know before you go!

We encourage patience and understanding at this time. The process that was in place a week ago may have changed thus please check before each purchase or visit. Farm markets are open with strict social common-sense practices in place to all for social distancing.

Thank you for supporting our local farming community!
